THE CITY ELECTION.

The election for city and Ward Officers, yesterday, passed off quietly. There was no contest for city officers except Marshal, and for this office the People's Candidate, CHARLES C. MAYER, an honest and sober man, was elected by nineteen hundred majority over the Democratic nomince, DAN HAFFNER! In several of the Wards the contest for Aldermen, &c., was quite spirited, and the run in the 3d, 4th, and 5th Wards pretty close. The Legislature.

Doubtless the people all rejoice, as we do, over he adjournment of the Legislature, So much is done each year in the way of tinkering at the laws, the publication of the laws is so much delayed, and is so limited in its extent at best, that the people never know what their laws are, and labor under constant apprehension as to the condition of things. The lawyers themselves, with their most earnest endeavors to do justice by their clients, often find themselves posed, and turned out of court, by some new law, hitherto unheard of, being thrust in their faces by opposing counsel. For their benefit, we are happy to say that to the best of our knowledge and belief, there are not more than forty or fifty amendments (?) to the statutes, as the result of the late

The Senate, composed of 13 Republicans, and Smith and Gill, have frequently voted with the former on questions involving aid and comfort, or the contrary, to the Barstow faction-has pursued its way with good feeling on the part of its members towards each other throughout the session. Bilis have generally received more careful consideration in Senate than in the Assembly. and many bad ones have received their quietus, while others have, by means of local bargaining, hard begging, and not a little log-rolling, gone through and become laws.

The Senate, early in the session, agreed to recognize Mr. Barstow as the Governor de facto, till the Court should otherwise decide, but on the decision of the Court being rendered, placing report a code of procedure and practice of the Governor Bashford in the Executive Chair to which the people had elected him, the same Senate, by a large majority, promptly recognized him, and no hard feelings have existed at any time among its members, arising out of the exciting Gubernatorial contest.

In the Assembly, matters went differently, The "Democracy" had a working majority of 10 or 12, and the minority were ruled with the strong arm. A few of the "Democrate" were elected by Anti-Barstow constituencies, and it was expected that they would not join themselves with the more violent of their parts; but four only Messrs. Anunson, Bostedo, Fletcher, and Huntington, had sufficient firmness to stand up against 2nd Ward .- A. Greulich, J. C. Dick. J. Sul investigation of the finances of the state now oing on for the first time in five years or more. The Report of the Committee on that subject will be looked for with great interest.

This is not, however, the only business to be done during the recess. The Judiciary Committen of the Senate will proceed with its investigation into the frauds of the late election, and sufficient is already known to assure us that, however much may have been hitherto said of the wickedness of the desperate faction which has just been turned out of the Capitol, the people have not been told half of the truth. It is to be hence that the individuals who perpetrated, as well as those who prompted these frauds, may be ferretted out, and at least expose d to public scorn, if there is no law to punish them otherwise.

Besides these, a law passed just at the close of the session, and, we believe, in time to receive the Executive signature, provides for the appointment of a Commission of three suitable persons by the Governor to compile the Statutes with the various amendments of past years, and report them prepared for republication, with the reommendation of needed amendments. It is a work which will require great accuracy and industry, but we doubt not that the men will be found, who will prepare the work to the satisfaction of the people. The former edition of the Revised Statutes is entirely exhausted, and there are no volumes to be distributed to the new towns which are springing up everywhere throughout the State; and, indeed, the alterations since 1849 have been so many and various and contradictory, that the volumes have been of late of little use. It is probable that arrangements can be made so us to have the new volumes ready for delivery

during the session of 1857. PROPELLERS COMING THIS YEAR,-The proellers Globe, Bradbury, Evergreen City, Iron City, Cuyahoga, Pittsburg, Kenosha and Racine, are advertised in Buffalo, as the "People's Line," o run during the coming season, between Buffalo, Milwaukee, and Chicago.

A Good Jone.-In the Assembly during Monday afternoon, says the Albany Knickerbrocker Mr. Mahen, of New York, made his appearance in his seat shorn of a huge pair of whiskers and a mustache, which had ornamented his "phix" all winter. This "cutting off" so disguised the member from New York, that hardly a man recognized When he rose to address the Assembly, Mr. Dudley get the floor, and to a question of order enquired "if the gentleman addressing the House was a member of the House." Indian Hastillities on Roome River. DESPERATE FIGUR-TWENTY-FIVE AMERICANS MASSACEED.—We are indebted for the following terrible news to an extra of the Crescent City Hendid, published on February 25, which gives the following details: Trem F. H. Pratt, Esq., a resident at the mouth of Rogue river, who arrived last night in the schooner Gold Beach, we receive the startling news that the Indians in that district have united with a party of hestile Indians above, and com-menced a war of extermination against the white

settlers. The station at Big Bend, some fifteen miles up the struct, having been abandoned several weeks previous, the Indiana made a sudden attack on Saturday morning, Feb. 28, upon the farms about four miles above the mouth, where some ten or twelve men of Capt. Poland's company of voluntwelve men of caps. Poland's company of volun-teers were encurped; the irmainder of the company being absent attending a bell on the 22d, at the mouth of Rogne river. The fight is stated to have lasted nearly the whole of Saturday, and but few of the whites es-caped to tell the slory. The farmers were all killed.

Hited.

It is supposed there are now about 300 hostile Indians in the field, including those from Grave and Galaise creek and the Big Mendows. They are led by a Canada Indian named Enos, who was the controlled Canada Ca formerly a favorite guide of Col. Fremont in his

expeditions.
List of Killed.—Capt. Ben Wright, H. Braun E. W. Howe, Mr. Wagoner, Barner Challe, Geo.
McClusky, Mr. Lars, W. R. Tullus, Capt. John
Poland, Mr. Smith, Mr. Seaman, Mr. Warner, John
Getsell and three children, P. McCullough, S.
Heidrick, Jos. Seros and two sons. The inhabitants at the mouth of Rogue river have all moved to the nerth side of the river, where formerly, under the apprehensian of a sudden attace, a forth had been erected; they number about 130 men, having less than a hundred guns among them.

THE WISCONSIN GOVERNOR.—Justice has been done in Wisconsin, and the S. preme Court of that State has nobly vindicated its own honor as well as that of the Commonwealth, in the result of the as that of the Commonwealth, in the result of the tain of the people to oust Barston from the Gubernatorial Chair. Under the decrees of the Court, the claim of Mr. Bushford to the Governorship was established and he entered upon the duties of the trust. Seldom has there been a nobler triumph of right over friend and wrong, than in this case. The action of the goople and the Courts have been resisted by Barston, by efficantery, insolence, and contempt throughout, and but for their firm determination to do justice, though the sakes should fall, he would have ruled the State by usurpation during the legal term of that office. We admite the Judiciary of Wisconsin for this violication of its integrity, and hope that its example will most with proper em-

nope that its example will meet with proper em Those who have attempted to rule Wisconsi by fraud, we notice, yield with a bad grace.

Barstow resigned to avoid being kicked out, but the Lieut. Governor, who entered upon the duties when Barstow abdicated, attempted to resist for. Basiford when he assumed the dis-charge of his duties, by refusing to yield the place. He was admonished that force would be

of the organization of the militia of our state, jet volunteer associations have been formered and encouraged by all classes of our citizens, and the legislature has repeatedly and very gaudgingly responded to the popular will in this respect by enactments intended to encourage the organization of volunteer comps (or uniform companies), and to foster a phit favorable, as no country or community can boast of an examption from that liability at one time oranother, and society demands its protection at the hands of their fellow-cidens.

The form the sampled by the merchants of St. Louis forempire the sample and sets absorbed by the instruction of the state of the sense has been stonly denied by our St. Youls cotempine nies but we have a fact at hand will this universible and shows the correctness of our previous cool has one.

The house of Samuel C. Davis & Co. St. Louis has long. a known as one of the oldest and most extensive whole been known as one of the oldest and most extensive works as catabilishments in that city. It has been engaged it was intake not in the strate for more than twenty five wears and when consumments and surely many meant mas always maintained a leal ling position. We now find that in accordance with a wise policy it has estab

taked a branch in this city

The house of Davis Moody & Co., No 1" South Water street, is he branch to which we rufer. Matthew Wredy. Eng, is the resident par ner in this city. The establishment opens in the splendid new block known as Laffing on South Water street just east of Wabash avenue and on some water steel just and water and or occupies one entire store, from cellar up. These ofcices are immediate. They are 26 feet front, and each soil runs back 140 feet piving the most ample facilities for do re-

an immense business
when not know anything by personal observation of the
St. Lovis house, but we are certain that if this is a starce
the main trank must look to fiself or it will be outglown of
outdone. We paid Merses Davis Mondy & Os, a sist restorday, out of curiosity to inspect a St. Louis branch we found the first we floore from front to rear filled with ane of the fullest awardments of Staple and Fincy Dry Goods and Yankee Notions we have ever gian ed over and they have neither been few nor small O another r we found an immense stock of boots and shoes and above will another floor devoted to a full associated of hats, caps, he What struck us particularly was that all shough several departments of the jobb ng trade seem shough arrest to the sometimes kept separate each depar ment was extensive and comple e in itself showing that this house is prepared to do an immense business and fully supply every variety of quatom in the r line | this is the kind of branches we are to attract away from Sr. Loois, give us more of them say we and the rain trunk will have to look well to its laurels—De ec at c

Bands & Curmings—a Brus making manisine was empraced—recommended it as bulget to best unachine obsered,
and therefore entitled to the highest award. As one of
this Committee, I am of the opinion that it is the hist machine now in use in the country for making bricks of
tempered clay. I have seen the machine in use, of full
size and the quantity and quality or the bricks it produces are better than any others that have come to my knowledge. I am engaged in the brick lushess and I ave
searched much in all our procepts, thes for the most approved much links, and must say. If at the machine is the

It is with much pleasure that I am prepared to say, tha "aying witnessed the operation of making brick, by a new patented machine, by Sands & Chambings it by far exceeds my expectations. It is very simple in its construction, and sure in its operation. For my experience as a practical machinist and model maker, (having constructed several models for that purpose, I behave it to be far superior to anything I have ever seen. It can be worked with certainty and great facility, by the most ordinary laborer, while it tempera the clay and mould the brick at the same time. I would expecually recommend it to all persons engaged in the brick business.
